▼ WhatsApp Integration: MessageBird Prerequisite Conditions

This article lists prerequisites for configuring the Contact Center–WhatsApp integration.

The following conditions must be met:

1. You must have a valid MessageBird account with an associated business phone number and a WhatsApp channel.
2. If you are subscribed to Contact Center Elite, the WhatsApp feature is automatically enabled on your account.
3. If you are subscribed to Contact Center Pro, you can purchase the **SMS & Messaging Add-on** to enable this feature.
   Note: Contact your Intermedia Representative for information on purchasing and activating this feature.

▼ Setting up a MessageBird Account and WhatsApp Channel

To set up a MessageBird account and a WhatsApp channel, ensure you have the following:

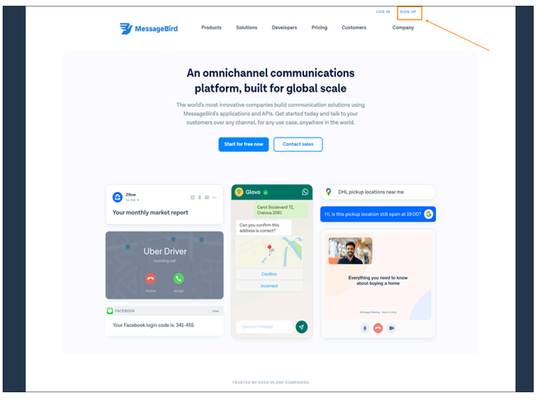
1. A **Facebook** account.
   You must be able to sign in and access your company's **Facebook Business Manager**.
2. A **Facebook Business Account**.
   This account must be verified. Ensure your personal **Facebook** account is linked to the **Facebook Business Account** and that you have the **Owner** role.
   Note: For details about Facebook verified accounts, see About verified Pages and profiles.
3. A phone number to use with a WhatsApp account.
   a. The phone number must be owned by your company. Do not use a personal number. This number will be assigned to the integration and end users will message this number.
   b. The number must not have been linked to WhatsApp before.
   c. You must be able to receive phone calls or SMS messages on this number.

▼ WhatsApp: Creating a MessageBird Account

After collecting the required information described in Setting up a MessageBird account and WhatsApp channel section, create your MessageBird account.

To create a MessageBird account:

1. In a web browser, go to MessageBird sign in.
2. Select **Sign up** and follow the instructions to create a new account.



3. Sign in to your new account. The Dashboard opens.
